春 雨

■ 上海竹稞 虞济龙

春雨,在这个早晨不期而至,有点犹抱琵琶半遮面的味道。

细细的,凉凉的,扑在脸上,顿时神清气爽,心情上的尘埃,随雨而逝,一个干净的心情,明亮而轻快,与这个有点灰蒙蒙的天气,截然相反。其实,我们欣赏一种东西,就是在找一个心情而已。

在寂寞中,我们有寂寞的味道;在热闹中,有热闹的愉悦。朱自清在《荷塘月色》中写道,我喜欢热闹,也喜欢独处。就像今天的雨,一个人欣赏,才能够感悟到那种心情上的美丽,不似在大庭广众之中,热烈玩耍的心情。

“春雨贵如油”呵!那是农人的一种喜悦。而现在的我们,只是在心情上寻找那种有点薄荷味的春雨,那甘甜的味道,那份没有污染的纯净……

听听这雨声,悄无声息,绵绵天籁,那是来自天堂的钟声吗?那是来自月宫的琴声吗?如此美妙的声音,在这个物欲的社会中,已经很难听到这样纯粹的声音。

也许,太久远离一种氛围,也就丢失了什么,因此,每当春雨降临,总有着某种惊艳。

在春天里,春雨就是一个音乐符号,它向大地的每一次敲击,总能够惹来文人墨客的雅情志趣,然后,挥毫泼墨一番,一个美丽的春雨图,一定让你赞不绝口。

田野里的小草,在这场春雨中,正沐浴着甘露,清洗身上的尘埃,准备努力地拔节,迎接一个勃勃生机的春天!历经寒冬的高大树木,也应该换上了绿妆。“杨柳青青江水平,闻郎江上唱歌声。东边日出西边雨,道是无晴还有晴。”这样佳句也许会脱口而出。这个兴致,怎么一个“好”字表达。

就这样的瞎想着,想着,竟然入了迷,像着了魔一样。被大自然的博大、清新、豁达、干净、美丽所深深吸引。春雨,似乎可以让这个世界从浮躁中回归沉静!这时候,想起佛经中的禅,想到了皈依这个词。

春雨,虽然淡,却能让人快乐,足以!一年之际在于春,从春天开始,会更加美不胜收!

金会庆博士当选《中国科学报》首席科学家

3月18日，“中国科学报社科学大使、首席科学家聘请仪式”在京举行。三联集团总裁金会庆博士被聘为《中国科学报》首席科学家。

在当今，“科学是第一生产力”，科学家更是社会发展的攻坚力量。此次《中国科学报》“科学大使、首席科学家”的评定，不仅是为提高《中国科学报》的科学宣传力度，使得专业化知识更具权威性，更是为国家科学院的知识库提供了充足的力量来源。

金会庆博士本次作为国家车辆驾驶安全工程

技术研究中心主任以及“三道防线”创始人的身份加入，为交通安全领域的科学研究增添了学术支持，使得这一新领域的研究能够获得更多的重视和突破。

“三道防线”理论是通过在源头上对车辆驾驶员进行筛选，从而避免减少车辆事故的发生，这对车辆驾驶安全

有着至关重要的作用。这一理论的提出及其运用，在科学史上是一次新的里程碑，其实用性和深入研究性对于车辆驾驶安全都将有着深远的发展意义。

科学大家成为本报高级智库

一场大雪过后，北京晴空万里。3月18日，“中国科学报社科学大使、首席科学家聘请仪式”在京举行。中国工程院常务副院长潘云鹤，中国科学院党组副书记方新，中国工程院副院长旭日干，国家自然科学基金委员会原主任陈佳洱，中国工程院原副院长杜祥琬、刘德培，中科院院士欧阳自远、匡廷云、郭雷、刘嘉麒等领导以及科学大使、首席科学家代表出席聘请仪式。

方新代表报社主办单位在聘请仪式上致辞。她说，今天是一个特殊的日子，1978年的3月18日至

3月31日，全国科学大会在北京召开，标志着中国科学春天的到来。改革开放几十年来，我国经济得到长足发展，社会也在不断进步，但我们也要清醒认识到，我国公民科学素养水平与发达国家相比还有相当大的差距，并严重制约了我国的社会进步。在刚刚闭幕的全国两会上，一百多名代表委员致信中国科学报社呼吁加大科普宣传力度、提升科普工作地位，这一方面表明代表委员对中国科学报社的信任，也表明加强这一领域工作的紧迫性。

方新表示，中国科学报社已成立53年，是我国

唯一的服务学术界的报纸,对科技宣传和科学传播工作责无旁贷。中国科学报社应依靠广大科技教育工作者、高层次专家群体的智慧,开门办报、开门办刊、开门办网,形成特有的权威性和公信力。今天的活动就是很好的尝试。

欧阳自远代表本报科学大使和首席科学家发言。他说,担任中国科学报社科学大使和首席科学家,不是有了什么样的荣誉,而是有了更大的责任、更多的义务。据欧阳自远介绍,他本人亦是科普工作的积极参与者。他每年在全国大概作 50 场科普报告,单是有关月球的科普 PPT 就有 20 多个版本。“目的是向公众解释科学为什么要这么做、能做出什么、能给公众带来什么。广大公众是我们的衣食父母,科学家的工作有必要和公众讲清楚,这是对公众的一种尊敬。”欧阳自远表示,科普宣传是每个科技工作者的神圣职责,科学传播者的队伍应不断壮大,为提高公众科学素养和国家全面建设小康社会服务。

中国科学报社社长兼总编辑陈鹏表示,科学媒

中国科学报社社长、总编辑陈鹏介绍活动

体有其特殊性,相关报道多半时候不能像社会新闻那样通过“眼见为实”来求证,而要倚重资深同行的学术评议。中国社会正处于转型期,各种复杂问题表现突出,科学媒体除了报道好科技工作本身之外,更重要的功能是用科学知识、科学方法和科学思想来诠释这些问题,进而提出可能的解决方案,而这尤其需要倚重各个领域的资深专家和智力资源。

陈鹏说,上世纪七八十年代,科学家是“明星”,但现在已不是公众“围追”的对象。“对于中国科学报社这样的媒体机构来说,我们不仅要把科学家当‘明星’来追,还要大张旗鼓、理直气壮、轰轰烈烈地追。”

据陈鹏介绍,中国科学报社今后还将聘任一些高层次专家担任首席科学家或科学大使,使得首席科学家的专业能够覆盖到各个领域,最终形成我们可以依靠的高层战略专家库。

党委和各党总支分别召开工作动员部署会，要求努力实现“五个进一步提升”的目标：党支部战斗力进一步提升，党支部书记素质进一步提升，党员队伍生机活力进一步提升，党建基础保障水平进一步提升，基层党建制度化水平进一步提升。把基层组织建设年工作布置落实到每一个党支部，并对基层党支部情况进行全面调查。通过调查走访、民主评议等形式，重点检查支部设置是否合理、支部班子是否健全、组织制度是否完善、发展思路是否清晰、活动开展是否正常、作用发挥是否充分、经费场所保障是否落实，切实摸清底数、掌握情况、找准问题。

在此基础上，由各党支部依据实际情况，对照分类定级评分表进行自评，填写《基层党组织（党支部）调查摸底与分类定级表》，同时组织党员群众代

表进行满意度测评。然后由党总支结合调查摸底、年度考核、群众评议、支部自评情况，按好、较好、一般和较差四个等级对党支部进行考评打分、分类定级。直属党支部参照教工党组织的分类定级评分表进行自评，由党委分类定级。

在活动中，各基层党组织将正在开展的学雷锋活动与创先争优活动有机结合起来，大力弘扬雷锋精神，在广大师生和党员干部中分别开展“弘扬雷锋精神、做全面发展一代新人”、“学习雷锋、为人师表”、“践行雷锋精神、办人民满意教育”主题教育实践活动。组织引导基层党组织在服务中心促发展、广大党员在立足岗位做贡献上“学先进、见行动”，带动全体师生员工争科学发展之先、创校园和谐之优，为党的十八大胜利召开营造良好氛围。

4月12日学院党委召开关于基层组织建设年基层组织分类定级专门会议，在基层党组织25个党支部自评的基础上，经过对照条件综合考评，确定学院5个基层党组织评定等级为“好”，20个基层党组织评定等级为“较好”。此次基层组织分类定级活动，使学院基层党组织理清了思路，明确了目标，找出了差距，提升了水平，为开展基层组织建设年活动奠定了基础。

爱心激发热情, 责任凝练价值

——记三联学院优秀党务工作者鲁旗会同志

鲁旗会是安徽三联学院工商管理系党总支书记、学管副主任。作为一名年轻而富有朝气的党务工作者,凭着对党的教育事业的热诚和强烈责任感,她把自己的愿望和抱负都倾注在所热爱的育人事业上,她爱岗敬业,默默奉献,处处以身作则,身先士卒,将自己的青春无私地奉献给了学生思想政治教育工作,用行动诠释着一名年轻党员全心全意为人民服务的宗旨。

一、用爱心诠释,用知识武装,做学生的知心朋友和人生导师

鲁旗会主要负责所在系的学生管理工作,凭借着曾经六年的辅导员一线管理经验,使她对于学生管理工作难点及辅导员自身的困惑均有切身的体会,为当前工作的开展提供了指导,使得管理工作更具针对性。她对学生管理工作充满热情,每天在校园你都能看到她忙碌的身影,不分份内份外,对每个人每件事,她都热心对待,她的这种工作态度和为人处事的热心也正感染和潜移默化影响着她身边的每个人。

鲁旗会来自农村,自知飘隔万里,独自求学的不易。因而从学生的学业乃至生活冷暖都始终牵挂心头。学生思想政治教育工作需要五心:热心、爱心、细心、耐心、责任心。她总结一条:对待自己的学生就要像对待自己的弟弟、妹妹一样,跟他们交心、交朋友,关心、帮助他们,否则学生思想政治教育工作就不可能做好。这种爱的精神正是一名学生管理工作人生价值的最高体现。此外,她尤其关心家庭背景比较特殊和家庭困难的学生,在工作中做到不抛弃、不放弃。每每看到学生因生活窘迫而无法继续学业,虽薪资微薄,但却总是尽其所能施以援助。曾经一名学生沉迷于网络导致学业荒废使她始终无法释怀,不记

得多少个无眠的夜晚,多少次不厌其烦的开导教诲,她的不离不弃,最终感动了迷失的少年,使他重返学习的正轨。她为了和学生们能更好的交流,将自己的手机号、QQ号公布给学生,随身备手机电板保证24小时不关机,随时和学生交流谈心,及时解决学生的困惑和难点。

在鲁旗会看来,成为一个好老师需要有良好的教育背景,丰富的知识理论体系,但更重要的是要有一颗善良博爱之心。她总是说“只有不会教的老师,没有教不会的学生”,教书育人的核心在于育人,只要胸怀一颗爱心,就能在学生的心底植出爱的种子,为以后出落成参天大树奠定坚实的根基。学生们视她为良师益友,乐于向她倾诉喜怒哀乐;而她对自己的学生也是爱惜有加,她喜欢分享学生的快乐,分担他们的忧愁,她始终是学生最忠实的倾听者。鲁旗会和千千万万的普通教育工作者一样,用自己的行动诠释着一名人民教师对社会的承诺,恪守着“学高为师,身正为范”的准则,无愧于“人类灵魂工程师”的美誉。

二、创新思路,充分发挥辅导员在学生思想政治教育中的作用

要做好学生管理工作,首先必须注重辅导员队伍建设,在工商管理系领导的关心和支持下,鲁旗会

创新工作思路,着力打造辅导员团队,使得团队人员各显其长、各司其职、各尽其能,充分发挥每位辅导员的潜能。同时配合系里的工作需要,分别成立了教学团队、科研团队、行政团队、党支部团队、团总支团队、信息宣传团队、招生就业团队,保证系里工作顺利有序地进行。

在学生管理中,她认为更新观念是辅导员作用发挥的关键。新形势下,教育环境和学生特点都发生了非常大的变化,过去经验型的辅导员工作观念和方法已远远不能适应当前学生工作面临的“难度更大”、“任务更多”、“要求更高”的现实情况,高等教育者必须牢固树立“育人为本、德育为先”的意识,认识到辅导员队伍建设的重要性和紧迫性,为充分发挥辅导员队伍在思想政治教育一线工作的骨干作用,确保辅导员在思想政治教育工作中真正取得实效,她紧抓辅导员队伍的规范化、科学化、职业化和专业化建设。

根据多年的工作经验,她发现辅导员队伍自身的研究功能是提高工作水平的有利武器。多年来,各高校辅导员开展工作基本上是依靠工作经验,形成“传、帮、带”的优良传统。有好的经验作为基础是好事,但是如果仅仅依靠经验就不会有发展,就会落后于时代。经验必须总结,工作必须要发展,发展必须依靠研究。她发现辅导员也具备一定的研究基础和um能力,对此她积极给予引导,希望他们能对学生工作进行思考和研究,关注社会环境和学生特点的发展和变化,并针对变化,思考新方法和新途径,撰写论文、编写教材,以此提高辅导员的工作能力和自身素质。

三、求真务实,真抓实干,做好基层党团建设

作为工商管理系党总支书记的鲁旗会,自2007年担任支部组织委员从事党务工作以来,始终坚持做到思想上积极进取,工作上求真务实、虚心求教、以身作则,充分发挥党员的先锋模范作用。在系部党团建设上,重点落实党建带团建要求,实现基层党团组织新发展,充分发挥民办高校党团组织作用,促进和谐校园建设,着眼把社会主义核心价值体系融入学生和教师教育教学全过程,积极指导团学干部组织学生第二课堂活动、专业技能竞赛、社会实践等活动,着力提升大学生的思想道德文化素质和各方面能力。先后组织学生参加“好之旅杯”导游之星冠军总决赛;首届院(系)才艺大比拼暨联欢会;学院的“祖国在我心中”诗歌朗诵比赛及征文比赛;全国商科院校现代会计技能大赛;第三届“金蝶杯”大学生创业大赛(安徽赛区);秋季运动会,元

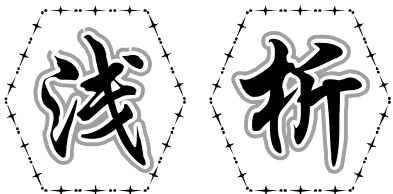

旦晚会等,都取得了优秀成绩。平时也注重团学干部素质培养,为了团学干部能更便捷的服务于大众学生,每年组织一次“团学干部培训会”,工商管理系团总支连续两年荣获“先进团总支”称号。

在基层党务工作中,鲁旗会不计个人得失,不怨工作繁杂,刻苦钻研业务知识,虚心向老党员求教,善于敏锐洞察新形势,准确把握时代脉搏,自觉锤炼,不断增强党建工作的能力。在“创先争优”活动中,工商管理系党总支努力做到“五个好”,全体党员争当“五带头”,积极做好入党积极分子的培养和组织发展工作,在重视教职工党员发展的同时,把学生的组织发展工作作为重点。把学生党建工作和学生德育工作有机地结合起来,采取早宣传、早教育、早培养、早成熟、早发展的培养模式。严格组织发展工作,在每次的党员发展过程中,对每个发展对象都严格把关,每个材料都一一过目,坚持成熟一个,发展一个。她经常利用休息时间找学生党员谈话,希望他们能脚踏实地,戒骄戒躁,充分发挥模范带头作用,做一名名副其实的党员。在2010年的创先争优活动中,她工作的岗位被授予安徽三联学院共产党员示范岗,并在2010年的党支部工作中考核中,工商管理系党支部被评为“先进党支部”的光荣称号。

四、注重学习,勇于思考,不断提高自身综合素质

自2003年工作以来,她积极参与安徽省普通高校辅导员培训,和高校教师岗前培训,认真学习理论知识,钻研辅导员业务。在工作之余积极思考和研究大学生思想政治教育,在参加学院德育论文比赛中,她的《‘教书育人,育人为本;德智体美,德育为先’研究》论文获得二等奖。她的付出和努力赢得了学校和系部对她的肯定与鼓励,期间先后荣获“就业先进个人”、“军训先进个人”;并曾连续三年荣获“优秀辅导员”和“三联优秀员工”称号;连续两年荣获“优秀共产党员”和“优秀党务工作者”称号,并于2009年9月获得省级“优秀教师”荣誉称号。这一切荣誉的背后倾注着她对学生工作的由衷热爱,对教育事业的一腔深情。踏上三尺讲台,注定今生要与富贵绝缘,但她对自己拥有的一切却非常满足。她常说学生就是她的财富,她们所托起的是民族的希望和未来。鲁旗会同志作为一名高校基层党务工作者,正满怀信心地带领工商管理系党总支一班人,发挥共产党员先锋模范作用,努力做好本职工作,再创佳绩,向党的十八大献出一份厚礼。

word“宏病毒”

现在大家在写作文档的时候都经常到网络上下载各种模板来简化自己的工作。不过模板中有一些不速之客。它们可不是为方便大家而产生的,它们携带着宏病毒。宏病毒常寄生于模板或者文档中,当大家运行文档或者模板后,就会激活病毒从而危害电脑。

如何检查 word 是否感染了宏病毒呢?其实方法还是很简单的。打开需要检查的文档,单击“文件”菜单栏,选择“另存为”命令,如果对话框中的保存类型固定为“文档模板”,则表示这个文件已经感染了宏病毒,需要用杀毒软件进行清理了。

因为宏病毒在 word 中寄居的文件就是 normal.dot,所以预防宏病毒方法也很简单,那就是把没有感染宏病毒的 normal.dot 文件的属性设置为“只读”,这样就可以起到预防宏病毒的效果了。

下面再说说如何使用手工的方法杀掉宏病毒。单击“工具”菜单栏,选择“宏”命令,调出对话框,如果在弹出的对话框中有已经记录的宏的话,删除所有的宏就可以了。有时复杂的宏病毒会将对话框屏蔽掉,这时候可以采取删除 MicrosoftOffice 目录

下 Templates 子目录的 Normal.dat。但是有些宏病毒会在硬盘上的多个目录中放上同样的 Normal.dat,如果仅仅只删除 Templates 子目录的 Normal.dat,word 会按照 windows 缺省的搜索路径进行搜索,这样会加载其他有毒的 Normal.dat,并把删除掉的再重新恢复。这时,我们需要使用 windows 查找文件的功能把硬盘中的所有 Normal.dat 全部删除就可以了。

敬烈士忠魂

扬三联精神

——记三联专修学院清明金寨扫墓活动

“又是一年春草绿，恰逢四月清明时”。4月7日上午，在专修学院党总支的组织下，专修学院30余名党员同志怀着无比崇敬的心情来到金寨县革命烈士陵园缅怀革命英魂。

上午7点，专修学院党员在院长王瑞友同志的带领下，从二校区出发前往金寨县，经过三个多小时的颠簸，终于到达金寨县革命老区，在田跃福处长的安排下，我们先后进行了瞻仰烈士陵园和参观革命烈士博物馆两项活动。

金寨县革命烈士陵园位于金寨县城梅山史河西侧西山上，一进门，只见苍松环绕，翠柏成行，石阶陡峭，十分庄严肃穆。党员同志们拾级而上，来到烈士纪念塔，塔身正面镌刻着刘伯承元帅亲笔题写的“燎原星火”四个镀金大字，气势磅礴，蔚为壮观。同志们在塔前向烈士敬献鲜花。绕过纪念塔，我们来到塔北面的红军纪念堂。面对为了人民解放而英勇牺牲的革命先烈，同志们不由地低头默哀。

瞻仰了革命烈士陵园，全体党员同志步行至墓园旁的金寨革命烈士博物馆。博物馆坐落在梅山镇红军村，正门头上的馆名由邓小平题写，门外镶嵌着江泽民题写的“全国爱国主义教育基地”匾额。馆内分为序厅、革命历史陈列厅、革命烈士事迹陈列厅和将军馆，陈列以实物为主，再现了“将军摇篮”金寨县1921—1949年革命斗争的历史。

面对革命烈士，同志们纷纷表示深受教育，他们的奉献精神也深深鼓舞和激励着我们，在今后的道路上我们必将更加努力学习工作，坚持奋斗，永不放弃，为祖国的美好未来而奋斗。

读你不迟

——读《中国教师报》有感

从事教学工作多年来，一直都喜欢读书看报。一份报纸，一杯清茶，让烦躁的心慢慢沉淀，让自己在烦琐的教学中得到心灵的净化和启迪。然而，我阅读了大量的教育类的报刊杂志，却不曾知道还有我们教师自己的报纸——《中国教师报》。

那是一个偶然的的机会，我认识了《中国教师报》。四年前的一天，我到校长办公室汇报工作，中途校长出门有事，叫我坐一会等他。我坐在沙发上随手拿了一份报纸想打发时间，没想到竟然是很陌生的《中国教师报》。我眼睛一亮，便认真看起来。丰富的版面、精致的设计、精美的印刷、贴近教育一线的教学案例、高屋建瓴的专业性文章……这些都深深吸引着我。校长回来后看到我对这份报纸的痴迷，便把近期的几份《中国教师报》全让我拿走。

一夜墨香！

第二天，我迫不及待找到校长，以教研室主任的名义，建议学校为各教研组增订一份《中国教师报》。校长欣然同意，并高度重视，要求各教研组在每个星期的业务学习时间，安排一次读报活动，以提高广大教师的思想和业务水平。

从此，《中国教师报》走进了我们的校园，走进了各个教研组，走进了我们每个教师的心灵。

《新观察》《班级在线》《家校彩虹》《校长峰会》《教学文萃》《杏坛春晓》《创新课堂》《读者论谈》……像屡屡清风，吹来了阵阵教坛馨香。我们徜徉其中，游目骋怀，领略天下教育风采，汲取教育新知，品味丰富人文情怀，当然，更多的是感受到了教师的重任。

通过阅读《中国教师报》，我们深刻领会，教师的工作不仅要教书，更要育人。教师不是一名教书

匠，而应是传播丰富知识的艺术家，教师的工作方法也与其他社会职业不同，他不像其它职业那样要使用什么工具，而是要用教师自己的知识、智慧、人格魅力在和学生共同活动中去影响学生、熏染学生。教师对学生来说是知识的传播者、智慧的启迪者、情操的陶冶者。

通过阅读《中国教师报》，我们仿佛找到了精神的家园。我们时而在他人流水潺潺、杏花烟雨的描写中徜徉，时而在他人挥洒自如、恣意汪洋的议论前驻足；时而在他人充满理性、启迪心智的抒情中游弋；时而在他人行云流水、娓娓而谈的叙述中醒悟……

2011年，作为全省唯一的一所民办卫生中专学校，我们安徽省红十字卫生学校获得省教委、合肥市教委领导及评估专家组的好评，并被纳入到计划招生的学校行列；2011年第七届安徽省卫生职业院校（大、中）学生作文竞赛评比中，卫校报送的12篇作品中，有8篇获奖，其中获得一等奖的就两篇。

成绩的获得因素来自于多方面，但《中国教师报》功不可没。

正如卫校校长在全校大会上所说的那样：“《中国教师报》为教师的专业化成长、为学校的良性化发展提供了一个不断发展的平台。”我想，不仅会有越来越多的老师在这里驰骋思想、飞扬激情、走向成功，而且《中国教师报》也会以自身的魅力吸引越来越多的学校在这里切磋交流，交汇思想，共同提高，走向辉煌。

《中国教师报》，读你只有四年，但仿佛读了你四十年、四百年。读你不迟！

我与故事

小时候,故事是令人向往的美好存在,我们习惯于在母亲温柔的讲述声中睡去,在香甜的梦中寻找它的身影;青年时,故事是一场无望的追寻、是一场不凡的经历、是与众不同的传奇,我们追寻它的存在又怀疑它存在;老年时,故事是对过去的怀念,是对曾经的缅怀,我们为它流泪也为它欢笑。

从来没有的事

故事是从来没有的事。它是用一种近乎虚幻的美好、一种近乎完美的幸福构造了一个又一个人类的美好希冀。

我们曾经在女娲补天的波澜壮阔里瞥见那人身蛇尾的女子奋力地举起补天石,用一种母性的光辉照亮了苍茫的大地;我们曾经在精卫填海的执着不悔里望见一只美丽的鸟儿锲而不舍地把石子投入无垠的大海,用执着与坚守书写一首传奇的歌谣……我们在故事里沉醉,我们在故事里感受。我们沉醉在故事中那些神秘莫测的美丽里,我们感受那些我们不曾经历过的诡谲与奇妙。

故事里承载的是一个民族对民族精神的一种诠释、一种描述。我们的祖辈们把它们口口相传,尽管经历了千百年,但是它们至今仍然在传递中。传递的不只是一个故事、一个从来没有的事,而是一种精神、一种心灵的启示。当我们还是一个蒙昧的孩子时,故事是启迪我们的一首古老歌曲,它印在每个孩子的脑海里,让他们乘着想象的翅膀遨游在故事中,完成的是一个民族精神的接力。

故事是从来没有的事,传递着千百年来不灭的民族精神。

已故的事

故事是已故的事。它停留在过去,停留在某一

个人的记忆里,留下的或许是幸福的微笑,也可能是痛悔的泪水。

时光是调皮的孩子,也是一个年迈的老人。当它匆匆向前时构造出了一个个或美好或痛苦的故事,当它缓缓前行时又让人们一次又一次地回顾那些已故的事。

它可能是你经历过的,属于你的故事。就像一次意义重大的考试,就像一次令人难忘的失败,就像一场美好的聚会。这一个个故事构成了我们每一个人的生活,让我们的生命如同一棵开花的树,充实而饱满。

它可能是别人的风景,属于别人的故事。是孔子的“有朋自远方来,不亦乐乎”,是李白的“对影成三人”,是杜甫的“感时花溅泪,恨别鸟惊心”,是毛主席的“乌蒙磅礴走泥丸,大渡桥横铁索寒”。我们浏览着这些我们无法参与的别样景色,或叹或泪,或喜或悲。

已故的事,让我们体会到什么叫“时间如白驹过隙”,让我们学会珍惜,让我们学会宽容,让我们学会预防,让我们学会很多很多。

故事就是故事

故事是我的故事,是我的美好,是我的悲哀。不管是别人的,还是虚构的,不管是自己的,还是祖辈的,它是让我成长的,让我感悟的悲喜,它最终都将在我的生命中留下属于我的痕迹。故事里有多少是是非非,故事里有多少非非是是;故事里的事说是就是不是也是,故事里的事说不是是也不是;故事里的事也许已经是真实,故事里的事也许是从来没有的事;其实故事本来就是已故事,故事就是故事,故事成为了我的故事……

Spring Rain

The spring rain came unexpectedly in the morning and seemed like her face was still half hidden behind a Chinese lute.

The thin and cool rain fluttered on the face, which made us feel more energetic. The dust on the mood died along with the rain. The mood, bright and brisk, was quite opposite to the little gloomy weather. We would look for a kind of mood rather than appreciate a thing.

We can taste the loneliness in the loneliness; similarly we can enjoy the pleasure of excitement in the jollification. Zhu Ziqing once wrote in *Moonlight Over the Lotus Pond*: I like both excitement and loneliness. Just like the rain today, only viewing the rain alone can we sense the beauty of the mood, instead of that feeling of playing in public.

"Spring rain is as expensive as oil." It is a kind of enjoyment of the farmers. And now we are only looking for the spring rain with a taste of mint, for the sweet taste and the purity without any pollution.

Listen to the quiet and continuous sound of the rain. Is it the sound of a bell from the heaven or that of a piano from the Moon Palace? In such a materialism society, it is hard to hear this kind of pure sound.

Maybe far away from a kind of atmosphere for a long time, it seems to lose something. As a result, whenever it comes, spring rain always brings about something amazing.

In the spring, spring rain is a musical notation. Each time it beats the earth, and always attracts elegance and aspiration of men of literature and writing. Then they will draw a beautiful map of spring rain, which makes you profuse in praise.

In the spring rain, the little grass in the field is bathing with dew, cleaning the dust on itself, endeavoring to joint and welcoming such a vigorous spring! Tall trees, after a chilly winter, should put on green clothes. "Between the willows green the river flows along, My gallant in a boat is heard to sing a song. The west is veiled in rain, the east enjoys sunshine, My gallant is as deep in love as the day is fine." Such quotations may escape from your lip. However, how you can express such elegant spirits only with a word "good"!

Just think, think blindly in this way even to the degree of being bewitched. I am deeply attracted by broadness, freshness, open-mindedness, cleanness and beauty of nature. Spring rain seems to let the world regress from impetuosity to quietness. At this time I think of both meditation in Buddhist Scriptures and the word convert.

Spring rain, though weak, can make people feel happy and sufficient! The whole year's work depends on a good start in the spring. It will be more beautiful from the spring.

DOCTOR JIN HUIQING: ELECTED CHIEF SCIENTIST BY *CHINA SCIENCE DAILY*

Doctor Jin Huiqing, director of National Center of Engineering and Technology for Vehicle Driving Safety (VDSC) was elected one of the chief scientists by *China Science Daily* on the ceremony held in Beijing on March 18, 2012. Doctor Jin's election was owing to his theory of "three lines of defense" in traffic accident prevention, which means, in brief, that from the beginning the drivers should be selected carefully and trained strictly so as to avoid traffic accidents. And the theory has generated great achievements and breakthrough in traffic safety. Furthermore it

attracts huge attention from other scientists and professionals to the relatively new research area.

As science and technology is the first productivity, scientists play a more critical role in the development of our society.

So the invitation of chief scientists by *China Science Daily* not only makes its contents and information more professional, but also provides China National Academy of Sciences with scientific knowledge resource.

Note: With distinctive features of professional knowledge, the publisher of *China Science Daily* is the only press house run by Chinese Academy of Sciences and approve by the General Administration of Press and Publication(GAPP).

SCIENTISTS: THINK-TANK OF *CHINA SCIENCE DAILY*

A ceremony was held on March 18, 2012 in Beijing for celebrating the election of chief scientists of *China Science Daily*. Many famous scientists from both the Chinese Academy of Engineering (CAE) and the Chinese Academy of Sciences (CAS) attended the ceremony. Representatives of chief scientists were also invited to the ceremony. Ms. Fang Xing, said on behalf of the *Daily* that

the day has a special meaning to China' science development;, the first National Conference on Science began on March 18, 1978 in Beijing marking the good time for China's science. Decades later, although we have made great development in economy and society, we should be aware that the gap in science literacy between Chinese people and people from developed coun-

tries is huge, which is a big barrier for our society development. Thus, letters full of suggestions and advice for improving the situation have come to China Science Daily from representatives and delegates of NPC and CPPCC this year. So it is urgent to promote people's science literacy.

Science communication has been the duty and responsibility of the *Daily* because of its uniqueness in spreading academic knowledge. It should be authoritative and credible among the public with the help of science educators and specialists. To elect chief scientists is a significant try, remarked Ms. Fang.

On behalf of these chief scientists, Mr. Ouyang Ziyuan said that being the chief scientists does not mean fame, but responsibility and obligation. He introduced that he himself had been active in communicating science. For example, he gave about 50 lectures every year on science throughout the country and made more than 20 versions of PPT for illustrating the knowledge about the moon.

"My purpose is to explain to the public why things have to be done according to science, what kind of things science can do and what benefit science can bring to human being. It is necessary for scientists to do science communication work to the public." Mr. Ouyang expressed. "More pro-

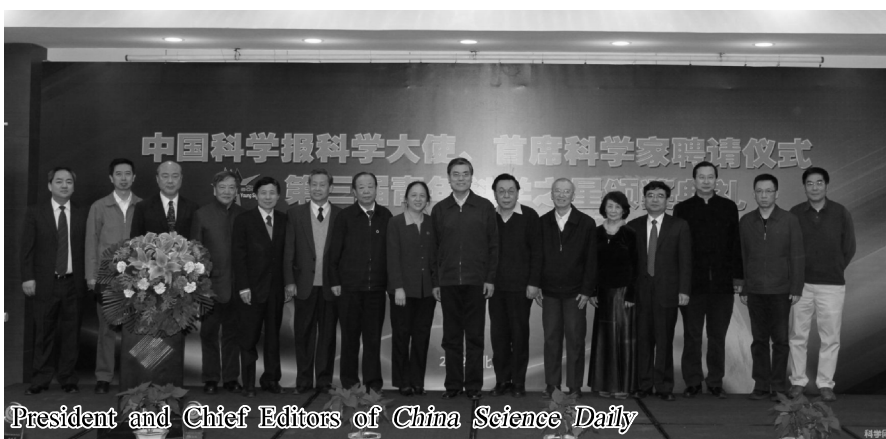

fessionals should give their efforts to communicate science knowledge to the public and to improve the public's science literacy

Mr. Chen Peng, the president of *China Science Daily*, pointed out that coverage about science acidities does not lie in the fact that seeing is believing, like social news do, but lies in the review and evaluation from senior peers owing to the specificity of science. Now in China the social contradictions are prominent in the social transformation period, scientific media should attach great importance to communicate science knowledge and methods to solve such contradictions. Needless to say, scientists and professionals from various areas must play a key role in fulfilling the task.

Scientists were regarded as Stars in 1970s and 1980s, but now the situation is different. As a science newspaper, *China Science Daily* has been considering scientists as stars, and will continue to do this, said Mr.

Chen. Moreover, Scientists and expertise from every field will be invited to act as chief scientists by the Daily and for the Daily.

Finally, Professor Yi Youmin asked related persons to thoroughly understand the spirit of relevant documents, look at the problems and prepare materials according to the experts' opinion. At the same time, he also meaningfully pointed out that the review meeting was in truth a training meeting, which would not only achieve the expected results but also something unexpected. People presented in the meeting have learnt a lot which is can not be learnt from the books, and enhance their own quality more rapidly. He believed that as long as they have experienced, there will be improvement. In the future they will stand higher and go further!

Love Inspires Passion, Responsibility Embodies Value

—A Report on Lu Qihui, an Outstanding Teacher in Party Affairs of Anhui Sanlian University

Lu Qihui works in Business Administration Dept. of Anhui Sanlian University, as Secretary of General party branch and vice dean. In her youth and enthusiasm, her rich vitality, her strong sense of responsibility, and selfless dedication, she has devoted her desire and ambition to the ideological and political education for students, to her beloved educational cause, by practicing what she practices and leading the way in every respect. Her action interprets the fundamental purpose of a young party member, i.e. to serve people wholeheartedly.

1. Act as a close friend and life counselor of students

Lu Qihui is primarily responsible for students management in her department. From her own experience in students management for six years, she is now keenly aware of where the difficulty is to implement the concerned work, as well as her own confusion as an instructor, which directs her current work to the point. She is engaged in her work with passion and deals with others fervently. You can see her busy on campus almost every day, regardless of her job duties, which encourages and infects others around her.

Coming from a faraway village, Lu Qihui knows it is not easy for students to cross miles from their hometown and study outside alone, thus she cares about everything ranging from students'

daily lives to their studies. She concludes that five elements are required in students' ideological and political education, which are passion, love, care, patience and responsibility. An instructor should help students and act as one of their intimate friends, at the same time, regard students as their own brothers or sisters, only in this way can the work be carried out smoothly. This is a spirit of love, and highly embodies value of life as a students management worker.

In addition, she never neglects or gives up each student at work, and is particularly concerned about those who come from special family background and whose families are financially difficult. In spite of meagre salary, she often makes it to give financial aid for those who live in poverty and are unable to continue their studies. Once a

boy student was addicted to the internet and neglected his study, which deeply haunted her. How many sleepless nights she has spent in taking sense into the boy and enlightening him! It is Lu's patience that eventually moved the lost boy and made his return to learning. In order for better communication she gives students her cell phone number and QQ number, and holds on the mobile 24 hours by bringing phone panels with her, thus can she have heart-to-heart talks with them at any time and solve their problems, difficulties promptly.

In Lu's view, there may be bad teachers, but never bad students, emphasis should be placed on educating students over teaching for teachers. Qualified teachers need to be well-educated, and rich in systematic, theoretical knowledge. What's more, good teachers should be ready to love and sympathize, in this way, can the seeds of love be planted in the hearts of students, which will lay a solid foundation for them to become useful persons of great ability in the society. Students are also willing to share their joy as well as sadness with her, regarding her as a good teacher and best friend. Accordingly, she loves the students more, and is a loyal listener, listening to their feelings and emotions.

Like millions of other ordinary education workers, Lu Qihui, adhering to the criterion of Great learning makes a teacher; moral integrity makes a model, has interpreted commitment of teachers to the society upon her actions, and deserves the reputation of "engineers of the human soul".

2. Give full play to the role of an instructor in the ideological and political education for students

Construction of a good team of instructors is necessary for students management. With strong support of Business Administration Dept, Lu Qihui

implements team construction of perfect instructors, so that all members could give full play to their potential, perform their duties and act to the best of their abilities. Furthermore, she exerts herself to construct a team of teaching, research, administration, the Party branch, the Youth League, information publicity, as well as that of enrollment and employment respectively to ensure that the work of the department proceed smoothly.

According to Lu Qihui, instructors should update their ideas and keep up with the age, which is important for them to play a key role in the work of students management. Under new situations, there have been great changes in education environment as well as characteristics of students, and it is difficult with more tasks and higher demands in terms of students management. The experience of instructors, as well as their concepts and methods in the past, may not adapt to the current circumstances. Lu thinks that instructors should renew ideas and keep pace with the age, then they could do well in the work of students management. High education workers should be keenly aware of "moral education first", and firmly implant in mind the importance and urgency of instructors team construction. In order for all instructors to fulfill themselves, she specializes in constructing a standard, scientific, specific and professional instructor team.

Her own experience for years has shown that improvement of instructors' research capabilities is of vital importance. Over the years college instructors have formed fine tradition of "passing on experience", relying on which they implement their work. Certainly, good experience can lay a solid foundation, which is favorable, but relying solely on it will make no progress and they will fall behind the times. Conclusions should be driven from experience to promote the work, while implementation of work relies on research. She

finds that instructors also have the potential to carry out research, so she encourages them to ponder the new methods concerning development and changes in social environment as well as characteristics of students, to write papers and compile teaching materials and improve their own abilities and qualities.

3. Implement construction of the Party and Youth League practically

As Secretary of General party branch in Business Administration Dept., Lu Qihui has been engaged in party work moderately in enterprising spirit with a realistic attitude, and fully played the leading role of a party pioneer by practicing what she practices since she served as organization committee of branch party in 2007.

As to construction of the Party and Youth League, she combines the socialism core values into the entire process of students' learning and teachers teaching, and fully displays the role of the Party organizations in private universities so as to promote construction of a harmonious campus, by implementing "Communist Party leading Youth League".

Besides, she has been busy organizing the second classroom activities, professional skills competitions and social practice activities, to enhance students' moral and cultural qualities, including Tour-guide Star Championship titled "Good-travel Cup", the first College (department) Talent Competition and party, College Poetry Recitation Competition titled "Motherland in my heart" and Essay Competition, Modern Accounting Skills Competition of National Business College, the third "Kingdee Cup" Entrepreneurship Competition of College Students (Anhui Division), Autumn Sports Meeting and New Year's Party etc. and achieved great success.

In addition, she pays attention to quality training of student cadres in the Youth League

and Student Union, and organizes them for training once a year, so that they can serve other students more effectively. General branch of Youth league in Business Administration Dept. has been awarded "Advanced Branch" for two consecutive years.

In daily party affairs, complex as it is, Lu Qihui never complains or cares about her own gain or loss, but studies hard with an open mind to learn from veterans for advice. With keen insight into the new situation, she is able to keep up with the age and enhance party construction.

In the activity of "striving to be the best", all party members striving to be "pioneers in five aspects", the Party branch in Business Administration Dept. managed to do well in five aspects, and implemented the training task of Party activists. In recruiting new party members, emphasis is placed on students over teachers, what's more, the task of students' Party construction has been combined with their moral education, following the training mode of "early propaganda, early education, early training, early maturity and early recruitment". Being strict in recruiting new party members, she will check every candidate carefully and review their materials carefully, following the rule of recruiting the qualified only. She often spends her rest time talking with student party members, encouraging them to play a leading role so that they can be Communists worthy of the name. For the activity of "striving to be the best" in 2010, she was awarded "the Communist Model" of Anhui Sanlian College, and the party branch she is working in, was awarded "Advanced Branch" in the same year.

4. Constantly improve her own comprehensive quality

Since she started to work in the year of 2003, she has participated in College Instructor Training

—Reflection on *Chinese Teacher*

Being a teacher for many years, I like reading newspapers all the time. A newspaper and a cup of tea will make our fretful heart peaceful, inspired and purified from trivial teaching. However, though I have read lots of kinds of newspapers and magazines on education, I didn't know we had our teacher's newspaper —*Chinese Teacher*.

By an occasional chance, I knew *Chinese Teacher*. One day four years ago, I went to the chancellor's office to report my work, and when the chancellor went out in the middle, asking me to wait for a while, I took a newspaper on the sofa casually to kill time. It was a *Chinese Teacher* unfamiliar to me. It lightened my eyes and I began to read it carefully. I was deeply attracted by rich pages, exquisite design, delicate printing, teaching cases close to the forefront of education, strategically advantageous professional articles, and so on. Later the chancellor went back, and when he found I was so interested in the newspaper, he gave me all the recent *Chinese Teachers*.

I read it the whole night.

The next day, in the name of director of Teaching and Research Section, I found the chancellor eagerly to suggest to subscribe *Chinese Teacher* for each teaching and research section.

The principle readily consented and required that in the weekly vocational study time, each teaching and research section should arrange a reading activity to improve thinking and operational level of the majority of teachers.

From then on, *Chinese Teacher* entered our campus, each teaching and research section, and

every teacher's heart.

The special columns, such as New Observation, Classes Online, Home School Rainbow, Summit Meeting of Chancellors, Collection of Teaching Articles, Innovation of Class Teaching, Discussion of Readers, and so on, make us teachers smell bursts of fragrance like sweet wind, appreciate teachers' elegant demeanor, absorb new teaching knowledge, feel rich human feelings, and especially feel the heavy responsibility of teachers.

Through reading *Chinese Teacher*, we deeply realize that the task of teachers is not only to impart knowledge on textbooks, but also to cultivate students to be good and skilled people. Teachers are not teach-book-smiths, but artists spreading extensive knowledge. With all kinds of methods different from other social occupations, without using tools, teachers utilize their own knowledge, wisdom, and personality charm to affect and influence students within the activities together with children. Teachers are knowledge-spreaders, wisdom-enlighteners, and charm-cultivators.

Through reading *Chinese Teacher*, we seem to find spiritual home. Sometimes we wander along trickles, among beautiful flowers in spring, or in the misty rain; sometimes we stop before others' free, random and forceful argument; sometimes we cruise in others' rational and enlightening lyrics; sometimes we wake up in the flowing and impressive narration.....

In 2011, as the only private secondary health school in Anhui province, Red Cross Health School received good comments from Anhui Department of Education, Hefei Bureau of Education and the assessment panel, and was listed into the

schools having unified enrollment plan. In the Seventh Students' Composition Contest in Health Vocational Schools of Anhui Province, Anhui Red Cross Health School sent 12 compositions to compete, and eight of them won prizes, in which two compositions won the first prize.

The achievement derived from many elements, of course including *Chinese Teacher*.

Just as the chancellor of the Health School said in a school assembly: "*Chinese Teacher* provided a platform for teachers' professionalization and school's favorable development". I believe, in

Chinese Teacher more and more teachers will express their ideas actively, fly their passion, and go to success, and more and more schools will be attracted to come here to communicate with each other, merge their thoughts, and improve and march to splendor together.

It's only for four years that we have read *Chinese Teacher*, but in our mind we have read it for forty years, four hundred years. It's never late to read *Chinese Teacher*!

Stories and I

In our childhood, stories are alluring beautiful existence, and we are accustomed to falling asleep in mothers' gentle account of stories. In sweet dreams we look for their shadows. In our youth, stories are hopeless pursuit, unusual experiences, or distinctive legends. We search for their existence but we doubt it. In our old age, stories are nostalgia for the past and memories of it. We weep for them, and smile for them as well.

Not Exist at All

Stories are about the events that do not exist at all. They build many beautiful hopes with almost illusory nice things and nearly perfect happiness. Once, in the story of Nu Wa Mends the Sky, we saw that the woman with human body and snake tail strived to raise stones to mend sky, with maternal love glory lightening the vast land. Once, in the story of The Bird Jingwei Tries to Fill the Sea, we saw a brave little bird keep carrying twigs and pebbles from the mountain to the boundless sea without taking a rest, hearing a song composed by perseverance and determination We drown ourselves in stories, in their mysterious beauty, and experience their strange and

wonderful things we never go through.

Stories carry the interpretation and description of spirit of a nation. They have been spreading for thousands of years through dictation, and today this spread is still going on. It is not a story, an imaginary event that we pass on, but a spirit or a spiritual revelation we inherit. When we are ignorant children, stories enlighten us like an old song, and enable us to roam in stories with wings of imagination. Thus the spirit of a nation is passed on.

Stories, the events that do not exist at all, pass down immortal national spirit.

Events Happened Before

Stories are about events happened before. They stay in the past, in a person's memory, leaving either happy smile or contrite tears.

Time is a naughty child, and also an old person. When rushing forward, it builds many happy or terrible stories, and when moving forward slowly, it allows us to recall again and again those happened events.

They are perhaps the events you experienced, belonging to yourself. These stories, such as a sig-

nificant exam, an unforgettable failure, or a nice party, constitute our private lives and make us fruitful like a blossom tree.

They are also perhaps events others experienced, belonging to others. For these stories, such as Confucius's "to be happy to welcome a friend coming from a distance", Li Bai's "not feeling lonely accompanied by the moon and his shadow", Du Fu's "Flowers would burst into tears, when he felt sad about current situation; twitter of birds would make him worried when he suffered from parting", or Chairman Mao's "Erecting Mountain Wumeng was just like some small mud balls; there were only several cold iron chains on the Dadu River, and how dangerous for the Red Army to capture the Luding Bridge", we cannot

experience. Facing these different views, we sign or tear, feel happy or sad.

Events happened already will let us understand "Precious time goes fast and never comes back", and learn to cherish, forgive, prevent, and many other things.

It Is Just a Story

Stories belong to me. Whether they make me happy or sad, whether they are about events happened on others, me, ancestors, or just fictitious, stories bring me up, let me feel, and finally leave my mark in my life. There are so many rights or wrongs in stories, which cannot be defined easily. No matter they have happened or never exist, stories are just stories, already belonging to me...

In her view, a great number of college students are the true wealth of her, because they are the hope and future of a whole nation.
